

Enterprise Survey and Forms Tool

Easy to Build Online Surveys

Instant Feedback with georgia.govSM Enterprise Survey and Forms Tool

The Enterprise Survey and Forms Tool from georgia.gov helps agencies create customized, professional online surveys and forms. Its template-driven interface takes care of layout and design, leaving you to focus on creating the questions you need answered from your constituents. It fits seamlessly into a georgia.gov site, allowing your agency to co-brand with georgia.gov.

Benefits of using georgia.govSM Enterprise Survey and Forms Tool

- **Multiple question formats.** Choose from radio buttons, checkboxes, text boxes, and other formats.
- **Built-in logic.** Applications can have conditional questions that navigate users to other questions based on their response. Answers can be pre-populated, required and validated for correct format.
- **Analysis and reporting tools.** Review statistics and reports, and download and extract survey results.
- **Instant notification.** Have results e-mailed to staff when users complete the survey or form.
- **Testing environment.** View forms online to test and review edits before they go live. Once you're ready, the tool gives you a complete URL to give to users.
- **Consistent Training.** Learn how to create surveys and forms that your constituents will use, by learning user interface tips and techniques that will yield the best data.
